Subject: Request for tenders: **Technical Assistance to support the development of an advanced disposal fee/waste disposal regulation for the Cook Islands**

Q1. The Waste Strategy on the ICI website is out of date, but the site says an updated version was to be finished at the end of last year. Is a new strategy forthcoming? Will the waste profile information compiled to prepare the ICI strategy (if any) be available to consultants engaged to perform this work?

The Cook Islands Waste Strategy is believed to be in draft form, SPREP is not involved in the development of this document. The successful consultant will liaise with ICI on existing and required documentation, it can be assumed waste profile information will be supplied.

Q2. Does the Moana Taka Partnership with Swire Shipping (signed in 2018) apply to the Cook Islands? Is a copy of the partnership agreement available to consultants engaged to perform this work?

It is understood Moana Taka Partnership does not apply to the Cook Islands as they are not serviced by Swire.
