Subject: PWP-152-CON Request for Tender: Supply and Delivery of Towable 9" Mobile Chipping Unit and Storage Box Combo box to Majuro, Republic of Marshall Islands.

1. We are looking into your requirement. Please could you confirm if the Chip Box will need to be installed in the Hyundai vehicle or is to be supplied as an individual item without installation?
 - **We are open to the market for suggestions on appropriate set-up for the Chip Box and Chipper. We seek for this unit to be towed around Majuro by the Hyundai HD65 and chip organics material into a storage box. Options may include:**
 - a chipper/chip box combination unit as offered by many chipper manufacturing companies
 - an appropriate removable storage cage able to be easily lifted on/off the Hyundai HD65 flatbed
 - a custom-made trailer with appropriate mountings for chipper and storage cage
2. The submission guidelines 4.2/e, section in the tender document referring to the Financial Proposal. It is stated that the total price should include associated taxes. As far as we know, projects like this are exempt of taxes. If this is not the case, could you confirm what taxes would apply for the Republic of Marshall Islands, please?
 - **Confirming this unit will be exempt from import tax into RMI. SPREP will liaise with the RMI Ministry of Foreign Affairs to obtain appropriate documentation. Other fees for shipping, importation, stevedores, wharf fees, etc are to be included in the fixed fee quote.**
