Environment Programme

## ANSWERS TO CLARIFICATION QUESTIONS

File: AP\_3/28/2  
RFT: 2022/040  
Date: 07 July 2022  
To: Interested suppliers  
Contact: Maraea S. Pogi [maraeap@sprep.org](mailto:maraeap@sprep.org)  
Subject: Request for tenders: **Supply of REACH RS2 Equipment for the Climate Information Services for Resilient Development in Vanuatu (CISRD).**

### Question 1:

We understand you are looking for 4 RTK survey kits.

As you are looking for 4 Emlid RS2 GNSS receivers, are the accessories (wooden tripod, bi-pod etc.) to be multiples of 4 as well, or is SPREP only seeking these accessories as a single item each?

### Response:

SPREP invites you to provide costings for the following associated components RTK Duo advanced kit.

2 x Triangl Wooden Tripod 1.67m  
2 x Triangl Tribach with optical plummet  
2 x Triangl Rotating Tribach adapter  
2 x Extension pole with Height level (32mm diameter)  
3 x Triangl Thumb release type bipod  
\*\*and 3 x Triangl 2.4m survey pole - not specified in the initial tender.

### Question 2:

We have noticed you are looking for a bi-pod in your accessories.

We are wondering if we should include a survey pole(s) in your RFQ to attach the bi-pod to, in order to use it as a subsidiary 'tripod' solution in the field.

### Response:

SPREP invites you to provide costings for 3 x Triangl 2.4m survey pole.
