Subject: Request for tenders: **Technical Assistance on resources to enhance organics management in the Pacific**

1. What is the potential upper limit for this tender, price wise?

**Response: There is not a substantial budget for this activity – however, our preference is potential tenderers explain in detail in their methodology why they are proposing to invest the hours, personnel and price proposed. The expectation, therefore, is tenderers will develop an appropriate methodology and justify costs as part of their tender submission.**
